Summary

As a technical professional with experience in project management and team leadership, I have successfully managed all technical procedures such as design, estimation, and assets on multiple projects. I have a track record of making sound decisions and leading technical choices. Additionally, I have experience in leading teams through the process of digitizing a large number of printed books, developing interactive activities and e-content, games, tools and delivering training. I have also overseen the implementation of Virtual Learning Environment services for clients in Greece, Latin America, Egypt, and the Middle East. I have served more than 1000 schools and over 500k students and teachers in these regions. I am always on the lookout for new technology and tools as opportunities for innovation and development excellence. I have experience in all stages of pre and post-production, including during finalizing and evaluating interview candidates for technical positions. My skills include Project Management, Problem Solving, JavaScript, Unity, C#, ActionScript, and Flash, Game Development, Adobe AIR, Moodle, SuiteCRM, WordPress, Front-End Development.
