PROFILE

I build interactive software that connects people with ideas. My work spans Unity applications, games, immersive environments and educational tools - supported by a background in technical direction and hands-on delivery.

PROFESSIONAL EXPERIENCE

Software Engineer / Unity Developer

Freelance / Self-Employed | January 2023 - Present

- Develop cross-platform Unity applications, touchscreen navigation, multimedia galleries and 2D/3D maps.
- Build configurable content systems using JSON and APIs, with remote content update workflows.
- Design gameplay prototypes, level editors, UI components and reusable development tools.
- Support technical planning, performance optimization and platform-specific delivery. Platform support varies by project.

Technical Director

Prime Press Egypt | August 2018 - December 2022

- Managed estimation, asset preparation, production planning and technical implementation choices.
- Led teams digitizing printed books into interactive activities, games, classroom tools and multimedia learning content.
- Delivered training and supported Virtual Learning Environment implementation across Greece, Egypt, Arab markets and Latin America, including Mexico.
- Contributed to products and services historically reaching more than 1,000 schools and approximately 500,000 students and teachers.
- Evaluated production tools and technical candidates; supported pre-production through delivery.

Flash / ActionScript Developer

Prime Press Egypt | June 2017 - August 2018

- Combined planning, drawing, design, animation and ActionScript programming for educational media.
- Developed interactive content and tools as part of a multidisciplinary production team.

IT Specialist & System Administrator

Elkhalig for Trade and Import | January 2017 - August 2017

- Installed and configured hardware, software and networks.
- Monitored performance, applied upgrades and resolved infrastructure and end-user issues.

IT Specialist

Future Academy | February 2016 - February 2017

- Supported non-technical users and maintained hardware and software stability.

Technical Support Representative

TE Data | August 2016 - November 2016

- Handled support requests through calls, chat and email; coordinated with support teams.

SELECTED PROJECTS

Museum Experience & Display Management System | Professional project

A complete Unity-based system for designing, operating and controlling museum displays, with remote control and experiences delivered on mobile devices or exhibition screens. Includes work for the Prophet's Biography Museum.

Prime Press E-Kit | Published platform | portfolio contribution

An interactive learning platform from Prime Press, combining digital coursebooks, workbooks, multimedia activities and classroom tools. My portfolio demonstrates E-Kit classroom-tool development, including V1 and Android V2.

Educational Games & Interactive E-Content | Professional portfolio

Interactive activities, educational games, phonics, stories and classroom resources developed through Prime Press and freelance work.

Pushcraft | In development

A single-player, grid-based 3D logic puzzle game about planning, positioning and chain reactions. Deliver crates to their targets, then build, test and share your own puzzles with the in-game level editor.

Mobile-Controlled 3D Map | Professional project

An interactive 3D map presentation controlled from a smartphone, designed for large-screen exploration.

Unity UI & Productivity Tools | Tools & prototypes

Reusable UI components and development experiments, from 3D carousels and scrolling interfaces to image loading and editor utilities.

TECHNICAL SKILLS

Games & Unity engineering

Unity, C#, Gameplay programming, Puzzle mechanics, Level editors, Game UI, Performance optimization

Immersive & interactive

XR / VR / AR, Meta Quest, 3D navigation, Touchscreen systems, Multimedia galleries, Cross-platform delivery

Learning & multimedia

Adobe Animate, ActionScript 3, Adobe AIR, Moodle / LMS, Interactive e-content, Accessibility principles

Web & content systems

JavaScript, HTML5, CSS, JSON / APIs, WordPress, SuiteCRM, PHP basics

Technical leadership

Technical direction, Production planning, Estimation, Team leadership, Product thinking, Client delivery

EDUCATION

Master's studies | Computer Software Engineering

Cairo University | Started October 2023

Completion status unconfirmed; no degree award claimed.

Diploma of Software Engineering

Cairo University | October 2022 - June 2023

Grade: Excellent

Bachelor of Commerce | Accounting

Ain Shams University | 2010 - 2015

CERTIFICATIONS

Moodle Administrator - Moodle | January 2023

Foundations of Accessible eLearning - LinkedIn | January 2023

ChatGPT Smart Learning - Hamdan Bin Mohammed Smart University | February 2023

Digital Product Management: Modern Fundamentals - University of Virginia | February 2023

EF SET English Certificate | 72/100, C2 - EF SET | Issue date not documented

MCSA: Windows Server 2012 - Microsoft | October 2015 | Historical credential

MCPS: Microsoft Certified Professional - Microsoft | October 2015 | Historical credential

LANGUAGES

Arabic - Native / bilingual

English - Professional working proficiency; EF SET C2 test result
